DONATION AND REUSE OPTIONS

In order to reduce our shared environmental impact, the City of Tacoma's goal is to divert 70% of our community's solid waste from landfills by 2028. Items in good working condition can often be donated to a local organization for resale right here in Tacoma.

Or, repurpose, refurbish, repair, or reimagine items that you already have!

A full list of donation sites and organizations is available at:
